### ALC Wrangles Over Cash for Water Pollution

LITTLE ROCK (AP)—The Arkansas Legislative Council entered its second session of budget hearings today with a wrangle over the \$90,000 annual request from the state Water Pollution Control Commission.

Apparent conflicts in some sections of the presentation confused several committee members.

Finally, Commission Director Marvin Wood made it clear he was not asking for salary increases or additional jobs, explaining that a boost from \$4,000 to \$67,000 annually for this item resulted from the recent acquisition of a full staff.

Rep. Paul Van Dalsem of Perry County and Sen. Max Howell of Pulaski County objected to inclusion of a commission attorney at \$6,000 a year. They asked whether the attorney general's office could furnish the necessary legal talent.

Wood said the commission's maintenance appropriation could be trimmed from \$34,000 to \$22,000.

VATICAN CITY (AP)—Angelo Cardinal Roncalli was chosen Pope today.

Roncalli, patriarch of Venice, becomes the 262nd supreme ruler of the Roman Catholic Church and its half billion followers.

He is 78 years old. Chosen in secret conclave by the College of Cardinals, the new pontiff chose the name John XXIII (23rd).

He succeeds Pope Pius XII, who died after a reign of 19 years and seven months, one of the longest reigns in the history of the church.

The new Italian pope, in the Roman Catholic view, is in direct succession to St. Peter, his titles, as officially listed by the church, are:

"Bishop of Rome, Vicar of Jesus Christ, Successor of the Prince of the Apostles, Supreme Pontiff of the Universal Church, Patriarch of the West, Primate of Italy, Archbishop and Metropolitan of the Province of Rome and Sovereign of the State of Vatican City."

The new pope, bald-headed and begin looking, has been one of the most popular prelates in Italy. He also has many friends abroad, particularly in France where he spent eight years as Papal Nuncio.

He has a sturdy health and is an untiring worker. His affable manners and quick-witted conversation have made him a well known figure at many diplomatic receptions.

He was born as the son of a farmer in a small village in the province of Bergamo. The people of this region, the Bergamaschi, are known to be food-hungry and easy going and young Roncalli lived up to this reputation.

After graduating from the Roman Pontifical Seminary in 1904, he became personal secretary of the Bishop of Bergamo, Msgr. Radini-Tedeschi. In this post, which he held until the bishop's death in 1914, he acquired an early knowledge of the administrative structure of the church and also devoted himself to historical studies.

During the war, he served first as a sergeant in the medical corps and later became an army chaplain. A three year term as a lecturer on theology and church history in the province of Bergamo followed.

In 1921, Pope Benedict XI called him to Rome and entrusted him with the task of reorganizing the church's missionary work in the Congregation Propaganda Fide for the propagation of faith.

Pius XI, who succeeded Benedict in 1922, also took a strong interest in the Missionary Work and Roncalli kept his post for four years, traveling to many foreign centers.

By STAN CARTER  
VATICAN CITY (AP) — Voting for a new pope went into the third day today with the 51 cardinals of the Roman Catholic Church apparently deadlocked.

As a crowd of Romans again gathered in St. Peter's Square to await the smoke from the Sistine Chapel, there still was no indication how close the princes of the church were to electing a successor to Pope Pius XII.

Presumably the cardinals were voting today for the ninth time, with a 1011 ballot later in the morning and two more in the afternoon and the voting under way reached. Thirty-five votes, two thirds plus one are necessary for election.

Black smoke pouring from the chimney of the Sistine Chapel Monday night signaled that no choice had been made. With four daily ballots originally planned and the voting under way since Sunday morning, it was assumed that eight ballots had been cast.

### Brookwood Carnival Thursday Night

Brookwood PTA will hold its Halloween Carnival on Thursday night, Oct. 29, at the school. There will be all kinds of entertainment for everyone in the entire family. A chicken spaghetti supper will be served from 5:30 to 7:30 p. m. as well as hamburgers and other foods.

### Washington Church Plans Revival

Washington Methodist Church will start a revival Wednesday, Oct. 29 and will continue through Nov. 2. The Rev. Wayman Mann of Warren will do the preaching and Mr. Rosey will have charge of singing according to the Pastor. The Rev. W. C. O'Connell, Secretary, will be in charge of the service.

### Suit to Bar Candidates Before Court

LITTLE ROCK (AP)—A suit to keep three Newton County candidates off the ballot because they failed to file campaign expense statements was carried to the Arkansas Supreme Court yesterday.

Attorney Jeff Duty of Rogers filed the appeal and asked for an early hearing. Otis Davis, a taxpayer of Newton County, filed the original suit which was dismissed in Newton Chancery Court. The defendants are the three nominees — W. D. Baker for state representative, Guy Bennett for sheriff and collector and Dennis Pruitt for county treasurer — and three members of the Newton County Election Commission.

The suit said the nominees were ineligible to be on the Nov. 4 ballot because they failed to conform with a "mandatory" requirement of state law and file campaign expense statements within 30 days after the August primary.

The nominees filed statements after the suit was brought and said they had no expenses. They said they were unaware they were supposed to file statements.

Newton Chancellor Ernie E. Wright dismissed the suit Oct. 17. He said the candidates' failure to file statements was because of "unavoidance and not by any willful intent to violate the Corrupt Practices Act."

### Fire Destroys Two State Cotton Gins

Two Arkansas cotton gins were destroyed by fire yesterday. Losses were expected to total \$100,000 or more.

### Final Rites Thursday for Mrs. Peyton

Funeral services for Mrs. Ella Virginia Peyton, aged 91, who died at her home here Sunday, will be held at 2:30 p. m. Thursday at Hope Gospel Tabernacle by the Rev. W. C. Land. Burial will be in Marlboro Cemetery, near Bayview.

### State Gins 387,067 Bales of Cotton

WASHINGTON (AP)—The Census Bureau reported yesterday that 387,067 running bales of cotton from Arkansas' 1958 crop were ginned prior to Oct. 18.

This compares to 383,036 bales ginned from the 1957 crop at the same time a year ago.

### Australia Clears 27 Year Old Mystery

SYDNEY, Australia (AP)—Australia's greatest aviation mystery — the disappearance of the Southern Cloud 27 years ago — was solved today.

The three-engine Fokker disappeared March 21, 1931 on a flight from Sydney to Melbourne. It carried two pilots and six passengers, including American theatrical producer Clyde Hood.

A search party following the tip of a construction worker found wreckage of a plane half buried on the side of one of the Snowy Mountains, 5,000-foot World's End.

Civil aviation officials today identified the engine numbers as those of the Southern Cloud. They found fragments of bone in the wreckage and a metal luggage tag inscribed "Hood, Clyde Capitot Theater," the property of the American passenger.

Over the years trees had grown large through the twisted nose and fuselage of the plane.

The Southern Cloud was type of three Fokkers operated by the Australian National Airways.

The plane was found in rugged country where few people had been until recent months.

### Congressmen Spend No Cash on Election

WASHINGTON (AP)—Four Arkansas congressmen have filed statements they received no contributions and made no expenditures in connection with the approaching general election.

The statements were filed by Reps. Brooks Hays, J. W. Trimble, E. C. Gathings and W. F. Norrell.

The situation on Hays was changed before the Nov. 4 general election since Dr. Dale Alford of Little Rock filed against him yesterday as an independent candidate.

Previously Hays, like the others, had no opposition in the general election for new terms.

Candidates are required to file both pre-election statements and post-election statements with Congress listing contributions and expenditures. No such statements are required in connection with primary elections.

### Jury Declares Faubus Action Erroneous

BLYTEVILLE, Ark. (AP)—A grand jury report says Gov. Orval Faubus may have acted erroneously in voiding a bail bond forfeiture here.

In a report filed with the Mississippi County Circuit Clerk yesterday, the grand jury said information presented to it indicated "the executive department of the state of Arkansas, through a proclamation issued by Gov. Faubus, may have acted from misleading information in the bail bond forfeiture case of Gordon Tinkle Jr."

Last week Faubus set aside a \$5,000 bond forfeiture in the case, explaining such a forfeiture might cost the homestead of Tinkle's aged parents, Mr. and Mrs. Gordon Tinkle Sr.

Records showed the younger Tinkle was charged with burglary and grand larceny. Judge Charles Light on Oct. 28, 1957, entered an order for forfeiture of his bail bond when he failed to appear in court.

Officers said Tinkle was held on a federal charge of bank robbery in Iowa.

Tinkle's parents posted the bond through the Carolina Casualty Co.

The grand jury report said "if such conduct should be considered as a precedent, sheriffs and courts may well question any Continued on Page Two

## Another Mine Blast in W. Virginia Reportedly Has Trapped 20 Men

### Man Close to Faubus to Help Alford

LITTLE ROCK (AP)—Dr. Dale Alford, announced segregationist who will oppose Rep. Brooks Hays (D-Ark) in the November general election, today named a close associate of Gov. Orval Faubus as his campaign manager.

Claude Carpenter Jr. resigned as general counsel of the Arkansas Public Service Commission to take the manager's post.

Alford, a member of the Little Rock School Board, revealed yesterday he would run against Hays as a write-in candidate. He charged that Hays considered a moderate on the integration issue — had not shown needed congressional leadership.

"I asked Mr. Carpenter to head my campaign because he is sympathetic to our cause," Alford said. "We are not attacking anyone personally. It's simply a matter that since the 1954 integration edict of the U.S. Supreme Court those who could have been speaking for us have failed to do so. By us I mean the majority of the people in this district and in Arkansas."

He added "we need to break this local stalemate because whatever happens here can happen to some other community in this district tomorrow."

Faubus was not available for comment on Alford's selection of Carpenter.

Hays this summer won nomination for a ninth term. He defeated Amos Guthridge, a militant segregationist.

Carpenter pointed out the general election will be held Nov. 4, "but we'll be working every minute." He said campaign plans would be announced later.

Another member of the Faubus administration also resigned his post today. W. L. Hinton Jr., quit as head of the Arkansas Assessment Co-ordination Division to enter private business.

Carpenter, who recently took a leave of absence from the PSC to head the "Dollars for Democracy" drive for funds in Arkansas, indicated he eventually might go into private law practice.

Hinton has headed the assessment division for three years. Faubus named F. W. Canaday to succeed Hinton. Canaday owns the England, Ark., Democrat and the DeWalls Bluff Democrat weekly newspapers.

Canaday joined the assessment division in 1955 as a field man. No successor to Carpenter was named immediately.

LITTLE ROCK (AP) — Claude Carpenter Jr. today announced his resignation as general counsel for the Arkansas Public Service Commission. He will serve as campaign manager for Dr. Dale Alford, who will oppose Rep. Brooks Hays (D-Ark) in the November general election.

At the same time, W. L. Hinton Jr. resigned as head of the Arkansas Assessment Co-ordination Division to enter private business.

Carpenter indicated he has been thinking of selling up in his own law practice. He recently took a leave of absence from the PSC to head the "Dollars for Democracy" drive.

### Rare African Fish Eagle Escapes

ALBANY, Ga. (AP) — A rare African fish eagle, said by its owner to be the only one of its kind ever brought to this country, has escaped.

The big bird with a seven-foot wingspread apparently broke a leather strap attached to its leg and took off while its owner, James Fowler, was out of town last week.

Fowler appealed to the public not to shoot the eagle, which he said is completely harmless. He offered a reward for its return.

Fowler said the eagle has a white head with brown and white wing and body feathers. He snared the bird early this year while in South Africa on a location expedition for an American film company.

### Soviet Prize Winner Ousted for Behavior

By HAROLD K. MILKS  
MOSCOW (AP) — Nobel Prize winner Boris Pasternak has been accused of treacherous behavior and thrown out of the Soviet Writers' Union.

The union's expulsion of the 68-year-old author of "Doctor Zhivago," a novel critical of communism, was announced by the Literary Gazette today.

This will certainly lighten Pasternak's social isolation. Foreigners in Moscow speculated that the expulsion could take away his right to work.

The Literary Gazette announced it said the unanimous decision to expel Pasternak had been taken at a meeting of the union's governing presidium Monday.

Pasternak and his "Doctor Zhivago," a best-seller in the West that has never been published in the Soviet Union, have been the targets of a bitter Soviet press attack since the Swedish Academy of Letters awarded him the \$41,420 Nobel prize for literature last Thursday.

He said he hoped to be able to get to Stockholm for Nobel ceremonies Dec. 12 to receive it in person.

The Literary Gazette said the decision by leaders of the Writers' Union "stresses that Pasternak's action are incompatible with the calling of a Soviet writer, are against the traditions of Russian literature, against the people, against peace and socialism."

The literary organ gave no indication whether Pasternak's wish to make the trip to Stockholm would be granted. The Communist party newspaper Pravda has declared that if there was "a spark of human dignity left in him," he would reject the award.

Pasternak's ouster from the Writers' Union strips him of the title "Soviet writer." It is certain to close many of the avenues of personal and professional association he has enjoyed, even after publication of his novel abroad.

Many felt the ouster also would mean restriction of his right to work, especially on translations and other activities which reached him through the Soviet government agencies or the Writers' Union.

### Rules PSC Action Had No Authority

LITTLE ROCK (AP)—The Arkansas Supreme Court has ruled that the Public Service Commission acted within its authority in granting a carrier permit to the Southwest Piano and Van Service. The certificate permitted Southwest to haul household goods between Washington County and other points in Arkansas.

Washington Transfer and Storage Co. and Red Ball Transfer and Storage Co. protested. The two firms appealed unsuccessfully to Pulaski Circuit Court and then to the Supreme Court. Southwest contended the two firms had merged and that Washington County needed additional moving service.

In its ruling yesterday the Supreme Court re-affirmed previous holdings that it was the duty of the PSC to determine the need for proposed new service and that any PSC orders should be upheld unless they clearly were against the weight of the evidence. In this case the court held the evidence was in favor of Southwest.

Since the case originated in the Arkansas Commerce Commission, the Arkansas Commerce Commission is supposed to pass on transportation matters.

### Error in Placing Dynamite Cause of First Blast

SUMMERSVILLE, W. Va. (AP) — An explosion shook the Oglebay-Norton Co.'s Burton coal mine near here today. First reports said as many as 20 men may have been trapped.

Summersville is about 60 miles west of Charleston.

Monday 22 miners died in an explosion at a mine at the southernmost tip of the state.

The mine where the explosion occurred today employs about 125 men.

The sheriff's office said that while first reports did not specify the number of men underground at the time of the explosion, several unofficial reports that 20 men were below "sound about accurate."

### Convict Charged With Murder

PINE BLUFF, Ark. (AP)—An all-male jury, including two Negroes, today hears final arguments in the murder trial of one convict charged with killing another.

The state is seeking the death penalty for William Frank Nail, 26, accused of the fatal shooting of trusty prisoner James Montgomery, 25, at Tucker Prison farm last June 19.

The prosecution charged that Nail, a prisoner "held" placed in charge of a work detail and permitted to carry a rifle, shot the unnamed Montgomery four times after an argument which arose over Nail whipping a horse.

Prosecution witnesses included nine convicts.

The trial started yesterday.

### Final Phase in A-Test Series

ATOMIC TEST SITE, Nev. (AP) — The final phase of a series of atomic tests that began 13 years ago is set for today.

On the board, in a hurry-up schedule before the Friday test, a deadline set by President Eisenhower, were two lower shots and two in tunnels.

One of each was planned for today.

Starting with the Trinity test, the AEC has set off 111 explosions up to the start of this current series. Fourteen more have been detonated up to today.

750 a year since initial equipment had been purchased.

The commission also took up the \$49,875 a year budget for the state Health Department's plumbing division, which includes \$25,000 for salaries. This is little different from the current appropriation.

In yesterday's session, the council became mired in a policy problem after hearing from State Controller Kelly Cornett.

Cornett said general revenues, from which a majority of state agencies and institutions receive money, probably would run four to five million dollars below this year's appropriations. And, he said, the outlook for next year was not much better.

To further complicate the matter, rejection of the 1957 sales tax increase from two to three per cent at the Nov. 4 general election would cut deeper into the general revenues deficit.

The council previously went on record with a hold-the-line attitude toward budget requests, and postponed consideration of requests from agencies which use sales tax money until after the general election.

Sen. Marshall Shackelfor Jr., of El Dorado, chairman, said the question of policy facing the council was whether to recommend budget increases and pay raises for state agencies operating on special revenues when a more light-fisted attitude would have to be taken with agencies operating on general revenues.

Until after the November Ballot.

ing the council will concentrate on requests involving only special revenues — specially earmarked funds derived from sources other than sales or income taxes.

The Legislative Council yesterday approved only one budget request: The State Bank Department's 290,432 item.

The Bank Department sought no increase.

Action was deferred on requests of \$6,150,000 for the Game and Fish Commission and \$173,600 for the Insurance Department.

Although the Game and Fish request was \$105,000 less than the current appropriation, the agency sought wage increases for 74 of its 292 employees including a raise from \$7,600 a year to \$9,000 for Director Nelson Cox.

The Insurance Department asked a budget of \$10,000 above its current appropriation. Most of the increase would go to raise the pay of the department's 30 employees and to increase the salary of Commissioner Harvey G. Combs from \$8,500 a year to \$10,000.

At the outset, on motion of Rep. Marcus J. Howell of Phillips County the council voted to change its working rules to exclude representatives of news media from its deliberations.

The council decided to consider all budget requests and act on them in closed executive sessions to the end of each day's hearings.

Rep. Paul Van Dalsem of Perry County, who enthusiastically supported Howell's motion, declared: "Too many of us make speeches strictly for the press—including me." He said the "hisses" and "name callings" are "our business and nobody else's."

held up to that time.

Tight secrecy surrounded the deliberations in the barricaded, double locked and tightly guarded Vatican apartments where the cardinals were confined until they reached a decision. Only the daily smoke signals — two Sunday and two Monday — gave indication of the progress of voting.

The ballots normally are burned after every second vote. White smoke, supposed to result from the burning of the paper ballots alone, signals election of a pontiff. Wet straw traditionally is mixed with the paper to give black smoke, the signal for failure to elect.

The system broke down Sunday, when white smoke came out and touched off false reports that a prelate had been named. Monday

Ann Adams Plays for Light Opera Production at University of Arkansas

Miss Ann Adams, daughter of Mr. and Mrs. Oliver L. Adams and a music major in her junior year at the University of Arkansas, is one of the two piano accompanists for the University of Arkansas light opera production, "H. M. S. Pinafore," being performed at various points from Little Rock to Memphis during the week of October 26 - November 1. Excerpts from the production were presented by the university group on KATV, Little Rock, Sunday evening, October 26.

A 1938 graduate of Hope High School, Miss Adams played the marimba in the Hope High School Band. In Hope, she was the piano pupil of Mrs. E. H. Stewart, and she studied organ under Mrs. J. D. Barlow. Sponsored jointly by the Friday Music Club of Hope and the Fine Arts Colony of Eureka Springs.

At the University of Arkansas, this talented young lady is on the music committee of the Arkansas Women's Society, is vice president of Tau Beta Sigma, honorary band sorority, and is a member of the Arkansas Boosters Club and of Zeta Tau Alpha social sorority.

# DOROTHY DIX

No Kidding — Divorcee Will Want Her Children

Dear Dorothy Dix: A divorcee, the mother of two children, has entered my life with such a bang that I think she will be a permanent part of my future. At present, we only date occasionally but I know that I could fall in love with her very, very easily. The children are with their grand mother and the girl has said that if she remarries the youngsters will remain where they are. I definitely am not in the market for a ready made family so I must confess that it is only on this premise of having the kids elsewhere that I would consider marrying the girl. Do you think I'm taking a long chance? — Mike.

Dear Mike: You are betting on a very long shot but the girl is quite confident she has picked a sure winner. It's utterly impossible to marry a woman with two children and eliminate the small fry from the picture. In fact, they will become the most conspicuous features of your domestic scene and you'll be the "little man who was not there" except when it's time to pay bills. Grandma may be willing to keep the children now because she hasn't much choice. But once her daughter is safely married the kids go back where they belong—in mamma's loving arms. No woman in her right mind is going to agree to a permanent separation from her offspring. In fact, the reason you're being hooked is to provide shelter for the family. Not that there's anything wrong in that, if done honestly. But to snag you in the belief that you would have no responsibility to the young is not quite cricket. If you have qualms about accepting a ready-made family, do your dating elsewhere.

Dear Dorothy Dix: I'm in love with a young man at our office who is five years younger than I am. I'm sure, he loves me, too, because I often catch him staring at me with that glow in his eyes. I'm sure he knows how I feel about him, although I have tried to hide my feelings — Elsa.

Dear Elsa: Don't bank too much on a "glow." It could mean indignation rather than heartburn. If the young man likes you, he'll ask you for a date. Tone down your too-evident affection.

Dear Dorothy Dix: I'm a new girl in town. I did a lot of babysitting in the old town and would like to keep it up here. Trouble is, no one knows me yet and everyone is afraid to trust me. How can I get the word around that I'm an experienced, trustworthy girl? — Colin.

Dear Colin: Get references from your old customers and show them around. Or get a circular printed (it will pay for itself) showing excerpts from these references and giving a brief seth of yourself. Be businesslike about it but don't cut into another girl's territory. That way, you make enemies, not friends. Send a stamped, self-addressed envelope for my leaflet, "You're In Charge," which has many fine hints on the tender art of babysitting.

Dear Dorothy Dix: Maybe I'm anticipating trouble but this matter must be settled soon. I'll graduate from grammar school in June and my parents want me to attend a private high school in a nearby city. I want to go to high school in my home town, so I can be with my friends. I can't bear the thought of going to the school my parents have selected and I can't talk them out of it. — Marge.

Dear Marge: You are borrowing trouble, dear. The time must come eventually, when you'll have to separate from the friends of grammar school days. Don't you think it will be nice to make a batch of new chums — who will go with you through high school and maybe college? At least give the school of your parents' choice a chance. Go there for a year, be fair about it, and I'm sure if it continues to horrify you, Mom & Dad will take you out. You are entering upon the age of new experiences. Don't rebel against them.

Dear Dorothy Dix: I'm a girl of 16 and so board (sic) that I'm at the end of my rope. Life is so dull. I can't find anything interesting. Is there something I can do for my ailments? — Board.

Dear Girl: Probably you mean you're bored stiff as a board. What you really are is just plain lazy. Ever tried studying? Begin with spelling. There's nothing like a good session with books to loosen the brain cells. Follow up with a brisk walk to loosen the circulation.

Dear Dorothy Dix: I was very interested in a recent letter from a bride whose husband was interested in nothing except hot rods. I know what she means. Both my brothers work in the same plant and when they come home all they can discuss is shop until the subject is sickening to the rest of us. The husband of this girl should give his wife more consideration. Since she doesn't appreciate his hobby he should take an interest in her activities.

Good, Rt. 1, Hope; Mrs. V. E. Traylor, Hope; Mrs. Clarence Peppel, Rt. 2, Hope.

Discharged: Glynn Foster, Hope; Charles Lewis, Fulton; Rodney Jim Reed, Shreveport; Marjorie Thomas and baby girl, Washington.

Mr. and Mrs. James F. Harrison of Fulton announce the arrival of a baby boy, born Oct. 27, 1938.

and save hot rods for occasional periods: — One Who Knows.

Dear Reader: Very good theory, but try to put it into practice. Might as well ask a mother to restrict talking about her children to one hour daily. When a husband has an all-absorbing hobby his wife better learn something about it, so he can talk to her. She can also be thankful that she knows where he is and what he's doing.

Send your problem to Dorothy Dix. Be sure to enclose a stamped self-addressed envelope and address her in care of this newspaper.

## Acquitted on Charge of Manslaughter

LITTLE ROCK (AP)—A pulaski Circuit Court jury, yesterday acquitted Paul Nitham, 33-year-old North Little Rock Negro, of a charge of voluntary manslaughter.

Nathan was tried in the fatal shooting of another Negro, James Crudup, 24, of North Little Rock. Crudup was shot to death as he stood in front of a North Little Rock grocery store Sept. 28, 1937. Nathan pleaded self-defense. Judge William Kirby reduced the charge from second degree murder to voluntary manslaughter before the case went to the jury.

# Three Soviet Scientists Win Award

By GUSTAV SVENSSON

STOCKHOLM, Sweden (AP)—Three Soviet scientists won the 1938 Nobel Prize in Physics today for building a better atomic mousetrap.

One of their traps — a cosmic ray counter — is now circling the globe in Sputnik I. Others are in nuclear laboratories around the world.

The winners are P. A. Cherenkov, I. M. Frank and Igor F. Tamm, all Moscow professors. They were cited jointly by the royal Swedish Academy "for the discovery and interpretation of the Cherenkov effect," the basis of a novel cosmic ray counter.

The 1938 chemistry prize was awarded to Dr. Frederick Sanger, 40-year-old British biochemist, for pioneer work on the molecular structure of insulin, the protein that diabetics lack. Remaining to be awarded this year are the prizes for medicine and physiology and the Nobel Peace Prize. The awards are made from a fund set up under the will of Sweden's Alfred Nobel, the inventor of dynamite.

The award to the Russian scientists posed a dilemma for Soviet leaders angered by the award last week of the 1938 Nobel Prize in Literature to another Russian, poet-novelist Boris Pasternak.

The dilemma is this: Pasternak is the author of "Doctor Zhivago," a novel critical of communism. Never published in the Soviet Union, it is a best-seller in the West. The Soviet press has demanded that Pasternak reject the award and his \$41,420 cash prize. The Red line is that Nobel authorities were motivated by politics and named him "in the interests of fanning the cold war." Only today, the Russians announced expulsion of Pasternak from the Soviet Writers Union.

On the other hand, Cherenkov, Frank and Tamm have long been rated among the elite of Russian atomic science. They are the first Soviet nuclear scientists ever to receive a Nobel citation. And the Kremlin likes recognition of Soviet scientific achievements. A cry of politics in this case would be out of character. But could the scientists go to Stockholm to collect their \$41,420 Dec. 12 if Pasternak is kept at home?

In layman's language, the cosmic ray counter developed from the Cherenkov effect amounts to a highly efficient trap for elusive subatomic particles.

The Royal Swedish Academy said that "without the use of Cherenkov detectors, the discovery of the antiproton which was made in Berkeley (Calif.) in 1935 would scarcely have been possible."

# Gas Explosion Damages Church

NORTH LITTLE ROCK (AP)—A natural gas explosion peeled brick off the back of a Negro Baptist Church here yesterday, causing an estimated \$1,000 damage.

G. G. Canfield, a deacon of the Eight Street Baptist Church, said he had lighted a match on the first floor and was testing a natural gas line for leaks when the explosion occurred in the basement.

Canfield was not injured. Asst. Fire Chief T. E. Harris said repairs from a May 29 fire in the church were almost complete and New stoves had just been installed.

Atomic counters based on the Cherenkov effect are used today in laboratories all over the world to check on the behavior of high energy particles.

They supply precise information on the particles' charges, velocity and direction. That is just what the counter does in Sputnik III.

# Sen. McClellan on Union's Pledge List

LITTLE ROCK (AP)—The national AFL-CIO has placed Sen. John L. McClellan (D-Ark.) on its "pledge list," a regional official of the National Assn. of Manufacturers charged yesterday.

Robert A. Price of St. Louis, NAM regional manager, declared, "They (the AFL-CIO) have decided that Sen. McClellan is unfit and they are going to throw money in here to try to defeat him."

Price, addressing the Little Rock Engineers Club, said the AFL-CIO was opposed to McClellan because of the exposures of his Senate Records Committee in its investigations of unions.

McClellan's present 6-year term ends in 1941.

# Coaches Believe Bobcats Must Go All-Out Friday

The Hope Bobcats, boasting seven victories, will face perhaps the toughest competition to date Friday night when they entertain the much improved Camden Panthers.

It was this time last year that a highly-favored Hope team went to Camden and got beat in a upset that put them right out of the district race.

Conches Pierce, Sevier and Beasley were mighty proud of the Bobcats play last Friday night against the fired-up Magnolia boys.

"We played some good solid football and came out without any injuries with the exception of Gary Don Formby who pulled a muscle but he should be able to play this week," Coach Pierce said.

"We are proud of the fine team play all the way through the game. We had some good down field blocking that we haven't had all year and it helped to break loose our backs two or three times. We will need more this week if we expect to go against Camden."

"Camden will be the largest team we have faced this season in the line and our scouts report they like to play football. As you recall Camden beat us out of the district last year and will be after us again. Our boys will really have to block and tackle hard this week if we expect to win."

"We have to have this game if we win the district. We feel the boys know they will really have to play ball from start to finish, Coach Pierce commented.

## Porkers Work on Defense Against Ags

FAYETTEVILLE, Ark. (AP) — "We will stress defense this week and as a consequence our offense will probably suffer," said University of Arkansas football coach Frank Broyles yesterday.

Broyles made the comment as his 6-0 team beaten Razorbacks in a conference clash with the "porkers" work for Saturday's South, single-elimination Texas Aggies at College Station.

The squad, in good splits after their fine but losing showing against highly regarded Ole Miss last weekend, worked in sweat on the field during a hard drill yesterday.

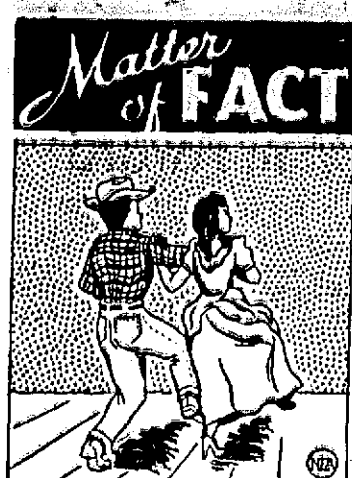

Fullback Donnie Stone still was on the sideline after a bout with influenza but the Porkers were expected to be at full strength against A&M. Stone, down to 133 pounds after losing 12 to the flu, was expected to be in pads for today's practice.

At College Station, Coach Jim Myers gave his team Monday off. He had promised the Aggies a holiday even before they staged their come-from-behind 33-27 victory.

Let's Assn. School Supt. Virgil Blossom said yesterday no decision had been made as to basketball but he added:

"We have had staff discussions on it, and admit that with no school in the second semester, basketball would present a problem."

Johnnie Burnett, AAA executive secretary, said the association would discuss the basketball problem at a meeting Nov. 6.

The modern square dance probably started as early as 1650 when John Playford published his book, "The Dancing Master," a book of country dances. In the United States "country dances" with the dancers in two lines, like the Virginia Reel, were most common in Revolutionary times.

## Week of Agony Ahead for Bowl Hopefuls

By THE ASSOCIATED PRESS

This is the week of sweat, agony and decision for four of the Southwest Conference teams clinging to an outside shot at the Cotton Bowl.

Southern Methodist, 0-1 in conference play, meets Texas, now 1-1. Two defeats usually mean the conference championship and the first spot in the big bowl at Dallas are gone.

Baylor plays Texas Christian, TCU is 2-0 and Baylor is 1-1. Texas A&M, 1-1, and Arkansas, 0-4, meet at College Station, Baylor and A&M are considered outsiders and Arkansas can only look to next year.

Rice, 3-0 and the current favorite, takes the week off.

Texas Tech, ineligible for the championship, tries Tulane.

Rain forced Texas inside. Coach Durrell Royal moved Larry Stephens to the No. 1 right tackle post and Dick Jones regained the starting left tackle spot.

"We're just getting ready for the team that beat Oklahoma," SMU coach Bill Meek said. "It's just like Darrell Royal said, what happened to Texas Saturday night (against Rice) could happen to any team."

TCU Coach Abe Martin promoted Harry Moreland from the

line to the right tackle position. The Aggies probably lost a starter for the remainder of the season as a result of the Baylor game. End Don Smith, a senior, suffered a collarbone injury against the Bears.

For A&M, the Arkansas game will be the team's last home date of the season.

## LSU Takes Over First Spot in Football Poll

By THE ASSOCIATED PRESS

Three teams in the top 10 of the Associated Press weekly college football poll are unbeaten and tied for first place, but at least one of them will have its record smeared next Saturday.

Louisiana State, which displaced Army as the No. 1 team this week, takes on Mississippi, No. 6, at Baton Rouge.

Colorado is the only other top 10 team with a spotless record, and it is in dire peril. The Buffs, No. 8, meet Oklahoma, The Sooners, No. 7, and with a one-point defeat by Texas the one-blossom record, have been picking up speed lately.

LSU displaced Army after the Cadets played a 14-14 tie with Pittsburgh, Iowa, with a penchant for knocking off previously unbeaten teams, defeated Northwestern last Saturday and moved from seventh place to second.

Army dropped to third place. Auburn moved up from fifth to fourth, and Ohio State, No. 2, a week ago, dropped to fifth as a result of its tie with Wisconsin.

The remaining top 10 teams as selected by the sports writers and sportscasters, in order: Mississippi, Oklahoma, Wisconsin, Colorado and Purdue.

LSU garnered 54 first-place votes in piling up 1,104 points for first place. Iowa was top choice of 33 voters as it accumulated 1,055 points. Army was first choice of 20 voters and Auburn of 23.

Three newcomers jumped into the top 10. Wisconsin took over the No. 8 spot on the strength of its tie with Ohio State; Colorado, beating Nebraska, now is No. 9 and Purdue, winning over Notre Dame, is No. 10. They replace Texas, Northwestern and Clemson all beaten Saturday.

The top 10, based on 10 points for a first place, 9 for a second, etc. (first-place votes in parentheses):

1. Louisiana State (54) 1,104
2. Iowa (33) 1,055
3. Army (20) 799
4. Auburn (23) 951
5. Ohio State (9) 901
6. Mississippi (7) 790
7. Oklahoma (5) 780
8. Wisconsin (3) 733
9. Colorado (2) 338
10. Purdue 292

The second 10: Northwestern 178; Pittsburgh 144; Air Force 136; Rice 13; Navy 74; Texas 53; North Carolina (1) 52; Texas Christian 50; Clemson 28; Rutgers (1) 23.

## Fishing Report Around Arkansas

LITTLE ROCK (AP)—Here is a fishing report and forecast from the Arkansas Game and Fish Commission:

Lake Catherine: No report.

third team to the left halfback spot on the second team in a search for more speed, Billy Gaul was shifted from left to right half.

The Frogs worked on pass defense.

Baylor did a lot of running as the Bears concentrated on play timing and passing drills. Second Bill Henderson warned the Horned Frogs "have great downfield blocking and great pursuit and make fewer mistakes than most football teams."

A&M players watched films of their victory over Baylor and heard an Arkansas scouting report. End Don Smith will miss the game with an injured collarbone.

Arkansas ran in sweat clothes for an hour's light signal drill. No lineup changes were made.

Texas Tech drilled at setting up defenses against Tulane. Halfback Floyd Dellinger returned to action after missing the Baylor game 10 days ago.

**Catherine Fish Kill**  
500,000 Pounds

HOT SPRINGS, Ark. (AP)—An estimated 500,000 pounds of fish have been killed in nearby Lake Catherine in an effort to rid the lake of rough fish.

The estimate was made by A. Hulsey, chief fisheries biologist for the state Game and Fish Commission.

He said the operation, performed Saturday, killed 99 per cent of the shad and 90 per cent of the drum in the lake. Game and Fish Commission workers dumped 1,400 gallons of the chemical rotenone into the lake. The chemical suffocates rough fish by affecting their gills, but is normally harmless to game fish and has no effect on humans.

The fish kill cost \$5,000 and was financed jointly by the Game and Fish Commission, and the Hot Springs and Malvern chambers of commerce.

**Calls Inflation a Bit Exaggerated**

LITTLE ROCK (AP)—A New York insurance executive said yesterday he believed the threat of inflation had been exaggerated.

Dudley Dowell, executive vice president of the New York Life Insurance Co., said in an interview:

"If we accept the theory that we are to have inflation at an average rate of 5 per cent a year, it would mean that a 25-year-old man entering business today would have to expect that at retirement he would be paying \$2.50 for a pack of cigarettes or \$25 for a suit of clothes. By that price scale, an automobile would cost \$20,000 and a home would cost \$100,000."

"I cannot believe that America will let this happen," he said.

Dowell will address the annual meeting here of the Arkansas State Chamber of Commerce and Associated Industries of Arkansas Inc., this afternoon.

**Steel Radiator Tub in Condemned House**

WASHINGTON (AP)—Patrolmen A. G. Reer and W. J. Futer walking their beat at night, slipped into a condemned building's third floor window. Out flew a bathtub. Then came a radiator. The policemen rushed inside and found Andrew Sampson, 46, and Calvin Baker, 22. They were slipping the house to get money for wine. The bathtub lessers announced.

Municipal Court Judge George D. Nelson sentenced Sampson to 90 days in jail and Baker to 60 days in jail. They were charged with charges of larceny.

The customer left after a few minutes and came 41, breathing easier, and to get his money.

He was coming along with the stolen towels that had just been

# Chiang Says China Revolt Is Ripe Now

By SPENCER MOSSA

TAIPEI, Formosa (AP)—President Chiang Kai-shek said today the time for a revolt in Red China is ripe. When it comes, he added, its success would be expedited from outside.

Chiang apparently implied that his own Nationalist forces would intervene in a Hungarian-type uprising. But he carefully avoided saying the Nationalists would counterattack against the Communists, who threw them off the mainland in 1949.

In a joint communique with U. S. Secretary of State Dulles on Thursday, Chiang renounced the use of force as the principal means of returning to the mainland. This renunciation was reported sought by Dulles to allay fears of U. S. allies that Chiang would drag America into war with Red China, possibly touching off World War III.

When the communique was issued, however, Nationalist sources indicated the ban on force did not apply in case of open revolt. The Nationalists long have contended a revolt would come and would return them to control of the mainland.

Dulles said in Washington Sept. 30 it was "hypothetical and problematical" whether Chiang would be asked to head "any regime which might come out of a mainland revolt." This and other remarks by Dulles angered Chiang and led to the three-day meeting this week.

Chiang said today people on the Communist mainland are "living like slaves and longing for deliverance" by the Chinese Nationalists. A revolt is inevitable and it unquestionably would succeed, he declared.

## Youth, 18, Admits Shooting Father

NEW YORK (AP)—Richard Hicks Jr., 18, has admitted shooting his father to death and dumping the body in a trunk into the Hudson River, police say.

Hicks was seized Monday, four days after the trunk bearing his father's body was fished from the river.

The Negro youth, a college freshman, was booked on a homicide charge.

Young Hicks hid out in subways, parked cars and parks after disappearing Oct. 23. When arrested in a Bronx park, he had only a dime and carried a loaded automatic.

He was quoted as saying arguments with his father over his education led to the shooting.

The father, a ship's radio officer, was shot once in the head as he lay sleeping in his Harlem home.

Leslie Couillard, 17, a white friend of young Hicks, told police he helped bury the trunk and stuff the body into it. Couillard was held in \$50,000 bail as a material witness.

**Shot Four Times, Gives Birth to Baby**

LOS ANGELES (AP)—A teenage wife who was shot four times in the stomach by her estranged husband gave birth to a 6-pound, 9-ounce baby Monday night.

The baby girl, a month premature, was wounded superficially but reported in fine condition by hospital attendants. The mother's condition was described as critical.

Police said the father, Miles Kennedy, 22, committed suicide after shooting his wife Caroline, 18, during an unsuccessful reconciliation attempt at the home of Mrs. Kennedy's mother in suburban Downey.

### Madcap Film Director Dies at 65

HOLLYWOOD (AP) — Marshall (Mickey) Neilan, 65, madcap director who could make and spend \$15,000 a week in the silent film era, died Sunday night of cancer at the movie industry's hospital.

"This is a great town," he once said when his luck had turned sour. "One year I made \$15,000 a week. The next I couldn't get 15 cents."

Neilan entered films in 1909 and quickly became a top writer, director and producer. Mary Pickford reportedly paid him \$150,000 to direct "Rebecca of Sunnybrook Farm."

He directed such stars as Charlie Chaplin, Colleen Moore, Jean Harlow, Wally Beery, Marguerite Clarke, and Blanche Sweet, who became his wife.

He was directing Howard Hughes' "Hell's Angels" when talkies came in. He did a few more sound films, but his reputation as the bad boy of Hollywood was catching up with him.

Blanche Sweet divorced him in 1929, declaring he was to much the life of the party.

He worked as an aircraft riveter during World War II and returned to studio work during the 1940s. But he never recaptured the glory he once had known.

He is survived by a son, Marshall Jr.

### Alford to Run Against Hays for Congress

LITTLE ROCK (AP) — Dr. Dale Alford, a member of the Little Rock School Board who has publicly supported segregation, announced today he will become a political candidate against Rep. Brock Hays (D-Ark) in the Nov. 4 general election.

Hays won re-election by a wide margin over Amis Guthridge, outspoken segregationist attorney, in the Democratic primary.

Alford, a surgeon, had indicated previously that he was considering the race.

He said today, "I will speak out on the issues of this campaign."

"At this time of crisis in America there is no time for the false-hearted," he said in a prepared statement. "We urgently need a voice in Congress that will speak out for the people of Arkansas, and not just for those of the east or of the west or of Europe or Asia."

Hays, a member of the House Foreign Affairs Committee, served as a mediator between President Eisenhower and Gov. Orval E. Faubus at the height of the Little Rock school integration crisis in September, 1957.

Alford's statement said: "This is a time for action and not for compromise. This is a time for forceful expression of our opinions on a national level and not for a surrender of our way of life based on a fence-straddling, political maneuver that goes over and around every important issue from racialism to integration and ends in political side-stepping."

He referred to the U.S. Supreme Court as the "Warren-dominated Supreme Court" and charged it contained "left wing members."

"Alford said he believed what he termed 'our American crisis'—an apparent reference to the integration controversy—"is one for positive decision and action to-day."

He continued: "Tomorrow may be too late. Indeed, two years from this time may be another two years lost to total socialism and the liberal left-wing politicians unless we stand up and speak out."

Alford added that "no one questions the fact that the present congressman is a good man, but there is prevalent and convincing evidence that he is a positive man and is totally ineffective."

Hays represents the Fifth Congressional District, which includes Little Rock.

### Beck to Continue to Hand Cases

LITTLE ROCK (AP) — U. S. District Judge Axel J. Beck will continue handling civil cases for the Eastern District of Arkansas while on assignment here although an interim judge has been appointed.

Chief Judge Archibald K. Gardner of the U. S. Eighth Circuit Court of Appeals at St. Louis extended Judge Beck's assignment from Nov. 15 to Dec. 15 in an order filed with the district court.

What you can't see... is still there

When you can't see the pinched, hungry-looking faces of millions of our friends overseas... you forget about them. You forget that three bare ragged clothes give little comfort through a long, hard winter. You forget that many of our friends are unable to earn their living because of wartime injuries. But the really real thing is America's religious faiths carry on 80% of the voluntary overseas aid.

#### Chapter V

"I'm not supposed to swim out where it's deep. The current's bad out there. Mother told me so."

She said it innocently, looking straight at him, making her eyes clear and guileless, a little stupid, she hoped, behind her glasses. He turned and looked at her again, too; there was a flicker of the black frown on his forehead, but then it was gone immediately. She thought: I've still got the advantage, and he can't tell what I'm doing.

He said confidently, looking away once more, "Oh, it's all right out there as long as you're not alone."

He said, "Well... yes..." He seemed to think for a second, and then he said, "We don't have to race. We could swim out to White Island."

She said again, obstinately, "Mother told me not to."

It did not hurt her now to mention her mother; and she had an instinctive idea that this was the one thing she could say to him which he could not get around. It was only Saturday morning now, and 10 days ago her mother had died in that same water.

Paul said, "It wouldn't be dangerous if we swam together. If you get tired I could help you."

But she shook her head. "I don't think I ought to do that. But I will come down and swim around a little bit, after a while."

"All right."

After the funeral more than a week ago, they had all come home together — she and Amy and Paul and Aunt Millicent. Dr. Treslove had come, too, but he had only stayed a few minutes, and then gone on. And Mr. Wetherby had come, too — her mother's lawyer — their friend and neighbor, white-haired, apple-cheeked, kindly, gentle — and he had gotten them all together in the living room and said that he wanted to read the will.

The will was the reason Paul was going to kill her. She could remember perfectly the expression on that dark, lean face as he listened to Mr. Wetherby reading pleasantly on and on. The phrases in the will were complicated, not at all like the way words were in a newspaper or a book. But she had been able to get the general impression — \$5,000 left to Amy, other sums of money here and there, the big diamond bracelet to Aunt Millicent. "And to my daughter Katherine..." That was the part that had confused her the most.

When the reading was over, she had asked Mr. Wetherby what it meant.

"Well, it means that with a few exceptions, your mother has left everything to you — you're a wealthy little girl — but that you can't get at it right now. It's in a trust fund."

It was so complicated, really, for her to grasp. And then she saw Paul standing by himself at the side of the room, the black frown on his forehead, she had said to Mr. Wetherby, "But what about Paul?"

"Paul and I are to be the trustees of your estate until you're old enough to handle it for yourself."

Clark here today.

Judge Beck, of Sioux Falls, S. D., will preside at trial as previously planned.

J. Smith Henley, a Justice Department attorney, and former resident of Harrison, was given an interim appointment Saturday by President Eisenhower.

### Charges Smear Drive Against FBI's Hoover

WASHINGTON (AP) — Is FBI chief J. Edgar Hoover to be the subject of a character assassination job? or of "a complete and balanced report?"

Preston Moore, national commander of the American Legion, charged in a statement that a deliberate smear campaign has been launched against Hoover and the FBI. He described it as "similar to the Communist party's unsuccessful efforts of 1940."

He said reporters of the New York Post have been assigned to dig up material to reflect on Hoover in what he described as "obviously a far-flung... attempt to do a character-assassination job on Mr. Hoover."

Editor James A. Wechsler of the Post said that paper is preparing a factual study of Hoover and added: "We are interviewing a wide variety of sources in many places in an effort to obtain a complete and balanced report."

Moore said also that complete issues of two magazines, The Nation and Rights magazines, are devoted to what he called critical articles on Hoover and the FBI.

Carey McWilliams, editor of The Nation, said that magazine's special issue "was in no sense a smear job on the FBI. It was a fair, objective evaluation of the work of the agency. Some nice things were said."

Rights magazine is the official publication of the Emergency Civil Liberties Committee. Clark Foreman, the committee director, said the FBI articles planned for the October issue are being held over until spring. He said the material would give citizens an outline of their rights under the Constitution.

The Emergency Civil Liberties Union has been listed by the Senate Internal Security subcommittee as a front organization engaged in defending cases of alleged Communist lawbreakers. Moore referred to this in his statement.

### Investigators Seek Cause of Mine Disaster

BISHOP, Va. (AP) — Investigators descend 300 feet into an explosion-racked tunnel at the Pocahontas Fuel Co. coal mine today, probing for the cause of the second disastrous blast at the site within 21 months.

Twenty-two miners were killed Monday, in the same section where 37 miners met death in a gas explosion Feb. 4, 1957.

Crawford Wilson, chief of the West Virginia Bureau of Mines, called it a shocking disaster and said: "We will uncover the cause."

A formal public hearing will get under way Wednesday.

Some 5,000 persons milled near the mine shaft entrance in this southwest Virginia mountain community while four rescue teams worked in relays to reach the missing men.

There were 188 miners in the underground chambers when the blast shook the area at 3:23 a.m. Wilson was in a party of workers groping through the gaseous, dense tunnel towards the blast scene at mid-afternoon.

It was his call by special telephone hookup that brought the word to mine offices: "I want to report that 22 men are dead. It is His report spread quickly across the area."

His report spread quickly across other night. He had been going to kill her, but she had gotten away from him.

the hillside where the surviving miners, their families and friends of the victims were waiting in a daze.

Red Cross and Salvation Army workers passed out cups of coffee.

It was 5:43 p.m. when the shaft elevator reached ground level, bearing two bodies.

Howard Richardson, a veteran miner, said the bodies were scattered over an area of about 200 feet.

Wilson said it appeared the miners were in the act of running when they were felled.

By 6:15 p.m. all 22 victims had been brought out.

Most of the underground confines of the sprawling mine is located in West Virginia, although the entrance is in Virginia. Thus Wilson and the West Virginia mine office has jurisdiction over operations.

Sharon B. Anthony, woman surgeon, was born in Adams, Mass.

### Cites Differences in Integration

LITTLE ROCK (AP) — A Negro pastor said yesterday there is a difference between church integration and school integration.

The Rev. Roland Smith, pastor of the First Missionary Baptist Church, said the churches have not under government control. But, he continued, the state can choose in the matter since they have not maintained segregation in public institutions and still follow the law.

Smith warned his congregation against becoming "pawns and tools" of segregationists trying to embarrass white ministers who have urged compliance with the U.S. Supreme Court's school integration decisions.

He referred to recent attempts by Negroes to attend Sunday services at white churches here. In each case but one, the Negroes were turned away or asked to sit separately from white persons in the church.

For the first time in five Sunday days, no negro attempted to attend a white church yesterday.

CLARKSVILLE, Ark. (AP) — A marker was dedicated yesterday at the grave of Paden Tolbert, one of the U.S. marshals who rode for Fort Smith's famed "hanging" Judge Isaac Parker before the turn of the century. About 100 persons attended the dedication.

LITTLE ROCK (AP) — School district budgets on file with the State Education Department show that 314 of the districts plan to make no change in 1959-60 millage rates, 58 plan to reduce them, 13 intend to raise them and 22 are undecided. Fifteen school districts have yet to file their proposed budgets with the department.

### Two Children Die in Home Fire

CROSSETT, Ark. (AP) — Two Negro children died in a fire that razed their home in nearby Parkdale early today. Their parents saved a third child and suffered severe burns in efforts to rescue the victims.

Dead are Claude Barnes Jr., 4, and Bobby Anna Barnes, 3, children of Mr. and Mrs. Claude Barnes.

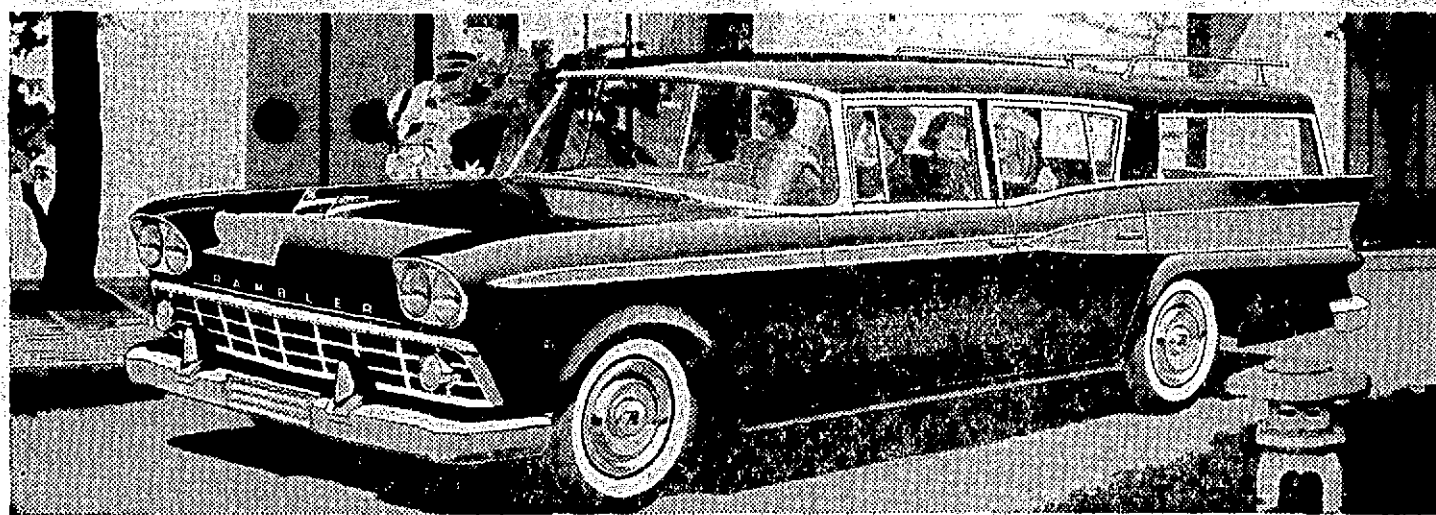

The parents were hospitalized at Parkdale.

Ashley County Sheriff A. B. Courson quoted the parents as saying they awoke to find the house in flames. They threw a six-week-old baby out a window to safety and then tried unsuccessfully to reach the older children.

Bodies of the victims were found beneath a bed after the fire burned out.

Origin of the blaze as undetermined.

Now that the other leading 1959 "low-priced" cars are out, way up in size and in price, the rush to Rambler is on. Tens of thousands of new car buyers are switching to America's compact success car, with smart new styling, exclusive new features and great new savings.

**Because Rambler saves you more** than ever before on first cost, as other car prices skyrocket.

**Rambler saves you more** than ever before on fuel, with new, advanced gas-saving carburetion.

**Rambler saves you more** than ever before on maintenance, with strong, safe single unit construction, with exclusive "Deep-Dip" rustproofing, even finer quality of manufacture.

**Rambler alone gives you full hat room, shoulder room and legroom** for six big 6-footers, with plenty of legroom for the "middleman," front and rear. And you get in and out with the greatest of ease.

**Rambler alone offers you new Personalized Comfort**

Sectional sofa front seats that glide back and forth individually; Airliner Reclining Seats; individual, adjustable headrests. Plus every pushbutton convenience. All-Season Air Conditioning, Air-Coil Ride.

Drive a Rambler today. See how it out-parks, outmaneuvers, outsaves any other '59 car built!
